Nenuphar, France Nenuphar develops robust and economical floating vertical axis wind turbines with limited environmental impact for power producers who want to install floating offshore wind farms. <http://www.nenuphar-wind.com/en>

Fraunhofer Institute for Wind Energy and Energy System Technology IWES, Germany
The Fraunhofer-Gesellschaft is Europe's largest application-oriented research organization and active in the sectors health, security, communication, energy and environment. The research activities of Fraunhofer IWES cover wind energy and the integration of renewable energies into energy supply structures.

EDF Energies Nouvelles, France Operating in Europe and North America, EDF Energies Nouvelles is a market leader in green electricity production, with a portfolio of 4,200 MW of gross installed capacity. With a development focused on wind and solar photovoltaic energy, the Company recently entered 3 new promising markets: Israel, Morocco and South Africa, and is expanding its business in offshore wind energy. The Company is also present in other segments of the renewable energy market: marine energy, biogas, biomass and small hydro as well as in distributed energies. EDF EN manages renewable energy projects' development, financing, construction as well as operation and maintenance for its own accord and for third parties. EDF Energies Nouvelles is a subsidiary of the EDF Group and its renewable energy arm. <http://www.edf-energies-nouvelles.com/en>

Vicinay Cadenas S.A., Spain Vicinay Cadenas S.A.'s field of business is the manufacturing of offshore mooring chains and -assesories as well as related engineering and design. <http://www.vicinaycadenas.net/eng/company/intro.html>

vryhof anchors

Vryhof Anchors NV, Netherlands Vryhof provides drag anchors and related mooring equipment for larger floating structures to the offshore energy industries as well as for offshore civil applications. <http://www.vryhof.com/>

Eiffage Construction Métallique, France Eiffage construction métallique, formerly known as Eiffel, is a subsidiary of Eiffage, major of construction and concession in France and Europe. <http://www.eiffageconstructionmetallique.com/index.php?LANG=EN>
